Summary:

Computer Science senior pursuing a career in data analytics with hands-on experience using SQL, Excel, DBMS tools, and Power BI to clean, organize, and analyze data. Completed data projects involving relational database design, exploratory analysis, and business insight generation. Experienced in fast-paced operations through two years at Chick-fil-A, with strengths in accuracy, teamwork, training, and process improvement.

Skills

Technical Skills: SQL, MySQL, Microsoft Excel, Power BI, Java, DBMS, Microsoft Access

Data Skills: Data Cleaning, Data Visualization, Relational Database Design, Joins, Aggregations, Pivot Tables, Dashboard Development

Professional Skills: Communication, Teamwork, Problem-Solving, Attention to Detail, Adaptability

Education:

Kennesaw State University, Kennesaw, GA
Bachelor of Science in Computer Science

December 2026
GPA: 3.4

Projects

Apple Sales Data Analysis — SQL, Excel

- Cleaned and organized raw sales data by removing null values, standardizing formats, and preparing data for analysis.
- Used SQL queries to analyze revenue trends, product performance, and category-level patterns.
- Created revenue metrics and identified top-performing products based on sales performance.
- Built visual summaries to communicate business insights and recommendations.

AI Usage and Student Performance Analysis — SQL, DBMS, Excel

- Designed relational tables connecting student demographics, AI usage, course enrollment, and grade records.

- Used primary keys, foreign keys, joins, groups, and aggregate functions to compare student performance.
- Analyzed grade trends between students who used AI tools and students who did not.
- Summarized findings related to GPA, course selection, and academic performance patterns.

Work Experience:

Chick-fil-A, Acworth, GA

Certified Trainer

08/2023 - Present

- Train new team members on store procedures, food safety standards, quality expectations, and efficient workflow.
- Support high-volume operations by maintaining accuracy, organization, and speed during peak service periods.
- Assist with inventory restocking and supply organization to support product availability and reduce delays.
- Delivered customer service by taking guest orders, confirming accuracy, and ensuring guests received the food, items, and assistance they needed.
- Collaborate with team members and leadership to maintain consistent order fulfillment and operational efficiency.
